EDUCATION OF DISASTER PREPAREDNESS MEASURES LANDS IN THE COMMUNITY	
<p>Background: <i>Landslide</i> is one of the traumatic events that can threaten human safety. The number of residential areas located in the cliff area where the occurrence of <i>landslides</i> is something the community should be aware of. <i>Preparedness</i> is useful for effective, timely, adequate preventive measures for emergency response and assistance during disasters. Therefore, the authors provide solutions in the form of posters for the community about <i>landslide disaster preparedness</i> actions that are appropriate to increase knowledge in <i>preparedness</i>. This <i>Landslide Disaster Preparedness Action</i> is the right medium for the community because the content in it contains insights that can be done by the community as well as attractive illustrations, descriptions of illustrated images using language that is easily applied by ordinary people. Objective: To increase knowledge and awareness of the importance of appropriate and safe <i>landslide preparedness</i> efforts. Method: Poster entitled "<i>Landslides Disaster Preparedness Actions</i>" which can attract the attention of readers and can understand the material presented. Conclusion: The poster entitled "<i>Landslide Disaster Preparedness Actions</i>" contains information about illustrated images, the use of language that is easy to apply, so that readers are not confused about the information conveyed by the poster.</p>	
Keywords: <i>Disaster, Landslide, Preparedness.</i>
