EDUCATION OF CAUSES AND IMPACT FACTORS  
DRUG ABUSE IN ADOLESCENT

**DIGEST**

**Background :** Drug abuse by adolescents as an escape from their problems is very worrying, and not even a few teenagers die from overdosing on drugs. However, this does not make adolescents who abuse drugs become a deterrent. In fact, every year teenagers who use drugs are increasing. Education is one method of providing information on the dangers of drugs. Posters are chosen to provide health information that can convey messages or materials in an attractive manner.

**Purpose :** to provide health education, so that people can understand the causes, impacts and ways to prevent drug use. **Method :** The poster entitled "Millennial Anti Drugs" was chosen as a medium of communication in providing health information to adolescents. **Conclusion :** The "Millennial Anti Drugs" poster contains information on the dangers of drugs and ways to prevent drug use accompanied by illustrations that make it easier for teenagers to understand the material. It is hoped that this poster can be useful as a medium for youth education in order to avoid drug use.
