**IMPROVEMENT KNOWLEDGE ABOUT PARENTING FOR CHILDREN
MOTORIC GROWTH 1-3 YEARS THROUGH POSTER**

SUMMARY

Background: the lack of public knowledge about good parenting for children aged 1-3 years, as a result not all children develop optimally and the rate of delay in child development is high or increasing. Management that can be easily carried out by the community or parents with knowledge or education on the growth of children aged 1-3 years, Posters, are used to provide information (knowledge) about good parenting media that can contain information briefly and easily understandable. **PURPOSE:** in the form of Intellectual Property Rights (HKI) or IEC products, namely, a poster with the title "Understanding Good Parenting Parents for Child Development". **RESULTS:** the results obtained were in the form of a poster with the title "Understanding Good Parenting for Child Development" in which information was written about good parenting for child development. **CONCLUSION:** The poster media "Understanding Good Parenting for Child Development" was chosen as a medium to provide information about parenting styles for parents, with the aim of providing insight into good parenting patterns for children aged 1-3 years.

Kata Kunci : *parenting style, child development*
